Hi Robert,

Thank you so much - I'll follow up with Kelly and see about Jared as well.

Also, I saw photos on the EPA's website from yesterday's press conference but does the EPA have photos from after the initial flow of wastewater last week?

Thank you!
Becky

Hey Becky,

I've definitely forwarded your request to Kelly Zito, a senior public affairs officer in Region 9 (HQ San Fran). Follow up with her at Zito.kelly@epa.gov.

I understand Ira will be in SF on Friday. Of course, you may want to find out whether Jared Blumenfeld will also be there – or visiting the Navajo Nation, which is part of his area of responsibility.

Let me know how it goes. I sincerely hope things work out, but you can imagine what this week has been like.

Best, R.

Hi Robert,

I just wanted to follow-up and see if it might be possible to get a guest from the EPA on Science Friday for the live interview on Friday, 8/14 from 3:00pm to 3:20pm ET.

Also would it be possible to get photos of the Animas River for our segment page?

Thank you for all your time and help!

Becky

Hi Robert,

Great chatting with you just now! As we just discussed on the phone, Ira is actually out in the Bay Area this week and will be broadcasting from KQED in San Francisco. The live radio segment is scheduled from 12:00pm to 12:20pm, and it would be great if we could get someone from the Region EPA office on-the-air/in-studio with him.

Speaking with someone from the Navajo Nation would be excellent, and if there is someone familiar with this type of emergency management that would be helpful as well.

I do need to preinterview all guests, which I would ideally like to do no later than noon this Thursday, but I can of course push that back to accommodate other schedules.

Thanks for your time and help! We'd really love to get someone from the EPA on to discuss this.

Kind Regards,

Becky

Hullo Becky,

Just a quick word to let you acknowledge receipt. Maybe we can touch base tomorrow?

Thanks for reaching out.

Best, R.

Hi Robert and Rich,

My name is Becky and I work for the public radio program, Science Friday. I am working on a story about the accidental release of mine wastewater in Colorado and would like to book someone from the EPA for the show this Friday.

The live radio interview is scheduled for 3:00pm to 3:20pm ET on Friday, 8/14. If someone from the EPA is available to discuss what happens, how the

situation is being monitored, and what some possible ramifications may be, that would be great.

Thank you for your time and help!

Becky
